The Commonwealth of Massachusetts

In the One Hundred and Eighty-Ninth General Court
(2015-2016)

An Act to regulate and tax the cannabis industry.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 An Act to regulate and tax the cannabis industry

2 Be it enacted by the Senate and House of Representatives in General Court assembled,

3 and by the authority of the same as follows:

4 SECTION 1. The Governor and the General Court,

5 Acknowledging that a century of criminal prohibition has failed to stop the production,

6 distribution and use of marijuana, and that sustained enforcement efforts reasonably cannot be

7 expected to accomplish that aim; and

8 Determined to protect the public health and the public safety, to eliminate the black

9 market in marijuana by licensing sufficient legal retail outlets and allowing marijuana producers

10 to participate within a lawful system of production and distribution, and to reasonably suppress

11 the availability of marijuana to persons under the age of 21; and
Informed by the success of education and treatment instead of arrest and incarceration to reduce adult and adolescent use of tobacco and alcohol, two substances with far greater documented harm to public health than marijuana; and

Endeavoring to promote new opportunities in Massachusetts agriculture, manufacturing and commerce in products from cannabis, including industrial hemp; and

Demanding transparency, fairness and objectivity in the selection of licensees; and

Respecting the personal autonomy of adults, among whom freedom supposes responsibility; and

Recognizing the needs of patients for a pharmaceutical-quality supply of medical marijuana without criminal penalty for its use; and

Recognizing further, the United States Department of Justice’s interest in reducing the distribution of marijuana to minors, and the misappropriation of marijuana revenues into criminal enterprises or as a cover for trafficking in other illegal goods, and the diversion of marijuana into states where it remains illegal under state law, and alleviating violence and the use of firearms in the trade, and the growing of marijuana on public lands; and

Meaning hereby directly to address those concerns and to correct the historical error of prohibition, conceived four generations ago in a cultural and racial climate very different from our own, to bring cannabis thoughtfully and deliberately into the economic mainstream;

do hereby ordain and enact the Cannabis Regulation and Taxation Act of 2016, meaning and intending hereby to repeal all laws punishing the cultivation of and commerce in cannabis (also known as marihuana or marijuana) by persons over the age of 21.
SECTION 2. The General Laws are hereby amended by deleting the existing chapter 94D
in its entirety, and inserting after chapter 94C the following chapter:—

Nothing in this chapter shall be construed to allow the smoking of marijuana or any marijuana product in any place inconsistent therewith. Local ordinances or bylaws may impose further restrictions on the public smoking of cannabis beyond the said smoke-free workplace law imposes on the smoking of tobacco.

Section 7. Applicability of existing protections. The cultivation, processing, storage and distribution of cannabis, whether marijuana or hemp, whether wholesale or retail, shall be subject, as applicable, to the provisions of chapter 94, sections 186 through 194 of the general laws relating to adulteration and misbranding of food, drugs and various articles, and the penalties as provided in section 190.

adopt regulations consistent herewith as the public health shall require, and otherwise integrate
the provisions of this chapter into existing rules and practices as same may apply. No regulation
concerning the sale of cannabis and cannabis products shall require stricter provisions, including
facility security, than existing regulations for the sale of alcohol or tobacco products.

Section 10. Personal use. Notwithstanding any other provision of law, except as
otherwise provided in this chapter, the following acts, by persons 21 years of age or older, are

any rights, nor be the subject of inquiry by an agency of the commonwealth solely for having
consumed marijuana, being a consumer of marijuana, or having been convicted of a marijuana-

when the person’s behavior related to marijuana creates an unreasonable danger to the safety of a
minor as established by clear and convincing evidence; (b) In proceedings relating to the

similar harm has occurred to another school by virtue of its tolerance of marijuana use by a
student; (c) In proceedings relating to housing, when the landlord’s toleration there would cause
it to lose a monetary benefit under federal law and regulations, with evidence that similar harm
has occurred to another landlord by virtue of its tolerance of cannabis use by a tenant; and (d) In
proceedings relating to employment, when a failure to do so punish or deprive would cause an
employer to lose a monetary or licensing related benefit under federal law or regulations, or
unless and employee used or was impaired by marijuana at his/her place of employment or
during the hours of employment, with evidence that similar harm has occurred to another
employer by virtue of its tolerance of marijuana use by an employee.

Section 13. Cannabis commission. Upon enactment of this chapter, there shall be created
a cannabis commission, having the rights, duties and authority as provided in sections 21 through

Provided, however, that no such license shall be issued until the applicant demonstrates that he is 21 or more years of age, is familiar with all laws and regulations relating to cannabis, and will exercise the license in premises adequately secure and otherwise suitable, in compliance with all applicable laws and regulations. No regulation shall impose a greater restriction on the licensee than existing restrictions on alcoholic beverage licenses.

Section 15. Holding multiple licenses. No entity may hold more than three licenses issued under this chapter, nor shall any natural person, individually or as principal, officer, shareholder, manager, member or on behalf of any entity, have any direct or indirect interest in more than five (5) licenses issued under this chapter. A finding that a person holds, or is a participant in an entity holding more than three licenses issued under this chapter shall be grounds for revocation of all licenses held by such person or any entity in which he participated. The local license authorities may designate the holder of a cannabis cultivation license as a “farm”, which designation shall entitle said cultivator to sell marijuana and marijuana produced on the premises to adult consumers for consumption or off the premises as may be provided. Such sales shall require a marijuana retail license, but the issuance thereof shall not be subject to the quota requirements of section 17(c)(6).

Section 16. Licenses: Process, limitations.
(a) Not later than 120 days following the effective date of this act, the commission shall promulgate forms and procedures for the awarding of retail and pre-retail cannabis facility licenses. Said procedures shall require, as a minimum, that the applicant submit the following:

(1) If the application is that of an individual, partnership, domestic limited liability company, or domestic limited liability partnership, proof of Massachusetts residency and United States citizenship of the individual, partners or members by production of a certificate of birth, naturalization or as a registered voter; (2) If the application is that of a corporation, the full names and home addresses of the president, treasurer, clerk and secretary, directors and manager or other principal representative of the corporation. The application shall be signed by an officer duly authorized by a vote of its board of directors or other similar board. A copy of such vote certified by the clerk or secretary of the corporation, together with a copy of the certificate of its organization, shall accompany the application. A copy of the vote certified by the clerk or secretary of the corporation appointing its manager or other principal representative shall also accompany the application; (3) If the application is in any name other than the real name of the applicant, a certified copy of the applicant’s certificate filed pursuant to section 5 of chapter 110. (4) The applicant’s Employer Identification Number. (5) The address of the proposed facility and a site plan of the entire parcel prepared by a professional land surveyor registered under chapter one hundred and twelve locating all buildings, security fences or walls, gates, processing areas, and storage areas, if any, and indicating the proximity to any public or private school or college, playground, housing facility
owned by a public housing authority, public or private youth center, or video arcade within one thousand feet of the parcel. (6) Plans, maps, photos and such documentation as shall establish that the proposed cultivation site will be screened from public view at grade; (7) If cultivation is contemplated, a farm plan developed as if in cooperation with USDA, to meet the applicant’s horticultural goals and protect local water quality and natural resources; (8) If retail sales to adult consumers are contemplated, whether the applicant is seeking a “shop” license (for off-premises consumption) or a “café” license (for on-premises consumption), or both. (9) An interior plan of any structure in which the activities sought to be licensed are proposed to take place prepared by an architect or engineer registered under chapter 112. (10) A letter from the local zoning enforcement officer that the premises may be used as proposed as a matter of right under the local zoning ordinance or by-law or local right to farm by-law or ordinance, or that the applicant has obtained any necessary special permits or variances, or the legal equivalent thereof; (11) A list of abutters certified by the assessor within 60 days of the date of the submission of the application; (12) A security plan, including facilities, equipment, and policies to prevent unauthorized diversion of marijuana and marijuana products, commensurate with existing security standards for drug stores and retail alcoholic beverage stores. (13) A certified financial statement from the applicant and its principals; (14) A certificate, with supporting documentation, that the applicant and its principals are current in the payment of any and all federal, state or local tax liabilities; (15) Evidence that the applicants and its principals have been residents of, and done business in, Massachusetts for the preceding two years. (16) A statement that by submitting this form, the applicants and its principals are authorizing the Commissioner to perform a tax delinquency check of the individuals and business entities seeking a license. (17) An application fee in the amount of five hundred dollars ($500). (18) An applicant may be
required to provide evidence of sufficient financial reserves or insurance coverage to
demonstrate financial soundness and management capacity, but no more than a $50,000 cash
escrow may be required, nor more insurance than $500,000 per claim or $1,000,000 aggregate in
annual claims.

(b) The application form shall be signed under the penalties of perjury. Any false
statement contained in any application shall be a cause or ground for refusing to grant the license
or for suspending, canceling or revoking a license granted under this chapter.

(c) For a 30-day period commencing 180 days from the effective date of this act, the
commission shall accept applications for retail and non-retail licenses. No later than 250 days
from the effective date of this act, the commission shall identify all applications that contain all
information required by this section, and shall notify said applicants and the local licensing
authorities, providing a copy of all applications for cannabis facility licenses in that municipality
found by the commission to have contained said information. The commission shall also notify
the abutters that such copies have been sent to, and are on file with, the local licensing
authorities.

(d) In the case of applications for pre-marijuana retail licenses, the local licensing
authority may, but shall not be required to, hold a hearing with regard thereto. If, upon such
hearing, it finds that the applicant has committed fraud or otherwise made a material
misrepresentation in its application, or that the letter under subsection 17(a)(10) was wrong as a
matter of law, it shall so notify the commission. In the absence of any such finding and notice
thereof, the commission shall issue the licenses and shall maintain principal supervisory
responsibility over other-than-retail cannabis licensees. If the commission is so notified, it shall
suspend issuance of a license to such applicant and take such further steps as the commissioner shall determine as shall fairly protect the interests of the applicant and the municipality.

(e) In the case of applications for marijuana retail licenses, the commission shall report to the local licensing authority the names of all qualified applicants for a retail license in its municipality, with notice thereof to applicants.

(f) Subject to such restrictions as the municipality shall have imposed by ordinance or bylaw in accordance with section 19, and other provisions of this chapter, the local licensing authority may issue the retail marijuana licenses for sales of marijuana and marijuana products to adult consumers for consumption off the premises of the licensee (to be known as a “shop license”) or for sales of marijuana and marijuana products to adult consumers for consumption on the premises of the licensee (to be known as a “café license”).

(g) The local licensing authority shall hold a hearing, with written notice to all abutters, and thereupon determine what reasonable safeguards and limitations on time and use may serve the community interest as expressed in the preamble or purpose clause of the community’s zoning bylaws, and otherwise to protect the public health and safety.

(h) Not later than thirty (30) days from the close of said public hearing, the local licensing authority shall issue licenses to such applicants who accept the conditions specified. If there are applicants than licenses available pursuant to the following subsection (6) below, marijuana retail licenses shall be awarded by lottery among those applicants identified as qualified by the commission and who have accepted the conditions. The lottery also shall designate the priority order of unselected applicants in case a license becomes available within a year of the initial lottery. Licenses becoming available after the first year, for which there are
more applicants than available licenses, shall be determined by a new lottery also identifying the
priority order of unselected applicants and also expiring in effect within a year. The lottery will
be witnessed by an independent third party and all applicants who choose to attend.

(i) The quantity of retail licenses the local licensing authority may issue is limited as
follows: unless the voters in a municipality shall have voted to prohibit all retail cannabis
facilities in accordance with section 20 of this chapter, the number of retail licenses shall be not
less than one nor more than a number equivalent to twenty percent (20%) of the aggregate
number of licenses the municipality is authorized to issue for retail sales of alcohol under chapter
138, for sales by outlets such as common victuallers, innkeepers and taverns, and private clubs,
for consumption on the premises, and to package stores and other stores selling alcoholic
beverages for consumption off the premises, unless the commission shall have approved the
municipality’s request to increase the number of marijuana retail licenses it may issue.

(j) The commission, at the request of any city or town through its city council or
selectmen, may increase the number of retail marijuana licenses authorized. If such number is
increased and there are more qualified applicants than licenses available, a new lottery shall be
held.

(k) With regard to the issuance and supervision of marijuana retail licenses, local
licensing authorities shall have such powers and authority as provided in section 1 of chapter
140, and shall collaborate with the local board of health with regard to matters within its
jurisdiction, such as food preparation and sanitation.

(l) The surviving spouse or legal representative of a deceased non-corporate licensee may
continue to exercise the license for ninety days following the death of the licensee, but thereafter
only with the written consent of the Cannabis Commission, which consent shall expire, if not
sooner revoked or the license transferred, fifteen months from the date of death. Consent shall be
withheld unless the said surviving spouse or legal representative meets the qualifications
prescribed for the type of license sought to be retained.

Section 17. Medical marijuana treatment centers. All entities registered by the
department of public health as a medical marijuana treatment center or a registered marijuana
dispensary, and in good standing, shall be issued a marijuana retail licenses for off-premises
consumption as a matter of right, without regard to the quota provisions of section 17(c)(6).

Section 18. Local Control. A municipality may enact ordinances or by-laws not in
conflict with this chapter, or with regulations adopted hereunder, governing the time, place,

convictions or dispositions have occurred, or other entries have been made, of such
expungement, and said clerks and probation officers likewise shall expunge records of the same
proceedings in their files.

(c) Effect of expungement. Such expunged records shall not operate to disqualify a
person in any examination, appointment or application for public service in the service of the
commonwealth or of any political subdivision thereof; nor shall such expunged records be
admissible in evidence or used in any way in any court proceedings or hearings before any
boards or commissions.

(d) Employment applications. An application for employment used by an employer which
seeks information concerning prior arrests or convictions of the applicant shall include the
following statement: “An applicant for employment with an expunged record on file with the
commissioner of probation may answer ‘no record’ with respect to an inquiry herein relative to
prior arrests, criminal court appearances or convictions. An applicant for employment with an
expunged record on file with the commissioner of probation may answer ‘no record’ to an
inquiry herein relative to prior arrests or criminal court appearances. In addition, any applicant

the Cannabis Regulation and Taxation Act. Any prisoner so identified shall be reported to the
committee for public counsel services, and the district attorney for the county of the sentencing
court, along with a copy of the sentencing mittimus. Any prisoner being held only for sentence
under an expunged or repealed marijuana offense, or held on a probation surrender based only on
drug testing or other probation violation regarding the probationer’s use of marijuana, may apply
to the sentencing court for an order of discharge and release. An initial hearing shall be held
within ten days of court application, to determine whether any basis other than a marijuana or
marijuana law violation exists for the prisoner’s continued detention. If no other basis exists the
prisoner shall be released forthwith at the initial hearing; if other non-marijuana related cause for
custody appears to exist, the prisoner may seek a continuance of the initial hearing to further
investigate and present evidence regarding a claim that the only basis for the prisoner’s custody
